How severe was the injury, sickness or disability?

Have suffered off and on with recurrent back pain for years- 3 times in bed for months. Have not been able to put head back & it look up without pain for 20 years.

What happened as a result of prayer?

The first night the Lord started healing my lower back & told me to do a cartwheel. I am 64 years old & haven't done that in way too many years. I went out in the narthex during service & did the cartwheel! Pain came into my hip but figured it was a readjustment. Sat. Night during worship I was getting a muscle palpitation in my hip. During prayer my neck was healed. Then the abdominal pain & colon pain stopped. My lower back is flexible-problem for 32 years from car accident! My heart's desire is that God will use mw to insert healing to my 12 year old grandson with osteosarcoma who has been given little chance of living. Through the healing tunnel several said I will bring healing to someone!! I believe it is to Alex & many more through the Holy Spirit. I will bring many more testimonies for Gods glory in the name of Jesus, the great I AM !!
